

Roles in User Experience

Amber Israelsen

DEVELOPER, AUTHOR, TRAINER

www.amberisraelsen.com

An illustration of a woman with brown hair and glasses, wearing a pink shirt and black pants, sitting at a desk. She is holding a laptop and pointing at it with her right hand. On the desk, there is a white coffee cup on a saucer, a water bottle, and some papers. In the background, there are office chairs and a window showing a city skyline. A speech bubble is coming from her, containing the text:

We'll need to put a team together. Let's talk about the roles we need for a project.

Common Roles in UX

User Researcher

Information Architect

Interaction Designer

Visual/Graphic Designer

Front-End Developer

Project Manager

Roles do not necessarily
equate to people

And some things are still
a bit fuzzy

User Researcher
Champion for the user

Day in the Life of a User Researcher

RESPONSIBILITIES

Conduct user interviews

Research market data

Gather findings

Design studies

Conduct usability and A/B testing

DELIVERABLES

User personas

Usability test results

Investigative user studies

Interview results

TOOLS

Microphones

Cameras

Documents

Paper

“Based on our research, a typical user will...”

User Researcher

Information Architect
The navigator and organizer

Day in the Life of an Information Architect

RESPONSIBILITIES

Conduct a content inventory

Card sorting

Create navigation and hierarchy, including labels

Create wireframes

Data modeling

Create a sitemap

DELIVERABLES

Content inventory

Card sorting results

Wireframes

Labeling system

Sitemap

TOOLS

Paper/whiteboard

Omnigraffle

Axure

MindManager

XMind

Treejack

OptimalSort

“Our content should be organized in a way that helps the user to...”

Information Architect

Interaction Designer

The animator

Day in the Life of an Interaction Designer

RESPONSIBILITIES

Create storyboards

Create wireframes
and prototypes of
key interactions

DELIVERABLES

Wireframes

Prototypes

TOOLS

Paper/whiteboard

Balsamiq

InVision

Omnigraffle

Patternry

Sketch

Axure

UXPin

“The button should change to dark gray for 500 milliseconds when the user clicks it...”

Interaction Designer

Visual/Graphic Designer

Pixel pusher

Day in the Life of a Visual/Graphic Designer

RESPONSIBILITIES

Create icons,
controls and visual
elements for UI

Utilize different
kinds of typography

Create and apply
styles

Create and enforce
brand principles

DELIVERABLES

Mockups

Style guide

Graphic files (PNGs,
JPGs, etc.)

TOOLS

Photoshop

Illustrator

Sketch

“That button needs to move a couple pixels to the left...”

Visual/Graphic Designer

Front-End Developer
Coder

Day in the Life of a Front-End Developer

RESPONSIBILITIES

Write code to turn the graphic designer's static design into a working, interactive experience

DELIVERABLES

Working, functional code (e.g., web pages)

TOOLS

HTML

CSS

JavaScript

“The JavaScript code will make the interface transitions smooth...”

Front-End Developer

Project Manager
Holds it all together

Day in the Life of a Project Manager

RESPONSIBILITIES

Oversee team and project from start to finish

Communicate with business stakeholders

Translate between business and UX team

Manage resources, budget and risks

DELIVERABLES

Final product

Project plan

Status updates

Various communications

TOOLS

Project management software

Documents

“That new feature will extend the delivery deadline by two weeks...”

Project Manager

Summary

User Researcher: Advocates for the user

Information Architect: Organizes and labels information

Interaction Designer: Concerned with how the user interacts with, and is informed by, the system

Summary

Visual/Graphic Designer: Concerned with the aesthetics of the site

Front-End Developer: Translates images to code

Project Manager: Manages the team and project from beginning to end

An illustration of a woman with brown hair and glasses, wearing a pink shirt and black pants, sitting at a desk. She is holding a laptop and pointing at it with her right hand. On the desk, there is a white coffee cup, a water bottle, and some papers. In the background, there are office chairs and a computer monitor. A speech bubble is positioned to the right of the woman, containing text.

All of these roles will participate in the UX process at some point.

An illustration of a woman with brown hair and glasses, wearing a pink shirt and black pants, sitting at a grey desk in an office. She is holding a grey folder and pointing at it with her right hand. On the desk, there is a white coffee cup on a saucer, a black coffee machine, and some papers. A speech bubble above her head contains the text "Do I have volunteers?". The background shows a window with a city skyline.

Do I have volunteers?

Coming up next...
